

Channel Frame Stock

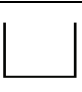

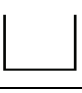

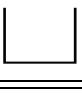

Make your own filters with Filtration Manufacturing Frame Stock. Channel is available in Rigid PVC plastic and three types of metal including Aluminum, Galvanized Steel and Stainless Steel. Frame lengths available up to 15'.

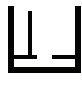

Metal frames come with many different options including notches, drain holes, ridged, flat, roll formed, and plain. We can allow for a lip on one end and drill holes in the other end so all you need to do is frame the material you have. The Rigid PVC frame has a slot built into the channel for easy assembly using a metal corner clip.

Our metal channel is available in standard lengths of 8', 12' and 15'. U Channel thinner than 7/16" has a maximum length of 12'. The Rigid PVC is available in 7' and 12' lengths. Non Standard lengths are available upon request.

ALUMINUM	.020 (light weight)
	.025 (medium weight)
	.040 (heavy weight)
GALVANIZED	.027 (24 Gauge Heavy Weight)
STAINLESS	304 (24 Gauge Heavy Weight)

Size/Type of Channel	Cross Section	Dimensions (W X H)	Light Duty Aluminum (.020)	Medium Duty Aluminum (.025)	Heavy Duty Aluminum (.040)	Galvanized Steel (24g)	Standard Pkg. Per Box	Stand. Length (ft)
